

## DAILY NEVADA STATE JOURNAL

C. C. FOWNING, Editor and Proprietor

Not long ago it was the fashion to charge that the people would not receive silver dollars; that they distrusted them; that they were afraid they would depreciate on their hands, etc. Now, of all the vast amount already coined, there are scarcely three millions not in circulation in some form or other. It is quite true that the people did not wish to handle the standard dollars, for they are an unwieldy coin. But that they ever distrusted them is disproved by the fact that since the Treasury has recognized the necessity of emitting certificates of small denominations against silver dollars nearly every dollar coined is doing service. So long as the smallest denomination of certificates was \$10, over \$200,000,000 standard dollars lay in the vaults at Washington absolutely doing nothing but give trouble. Since the passage of the act authorizing certificates of \$1, \$2 and \$5, the amount of \$155,000,000 have been omitted.

There is favorable promise that several new and important manufacturing enterprises will be located in and around Reno next Spring, and we are advised that there have recently been numerous inquiries from manufacturers regarding this section as a manufacturing point. These facts are very encouraging, since the great need of Reno, to assure its future growth and prosperity, is industrial enterprises. The attention which capitalists are directing toward Reno ought to receive every possible encouragement, and the apparent decline of interest in the matter of presenting Reno's advantages as a manufacturing point is to be regretted. There should be a vigorous renewal of effort in this direction.

The Mormons are doing some lively swearing in the Courts of Salt Lake. A leading apostle declared under oath that the church punished murder and impurity with death, but was as silent as a clam when questioned as to the number of his wives. Refusal to answer landed him in the penitentiary. The church must be in desperate straits when its leaders stand in open Court and utter such glaring untruths. Had capital punishment been meted out for impurity, the church would have been wiped out of existence by its own sins.

In twenty-five years cotton has declined from first to fourth place among the products of the United States. The value of this year's crop is estimated at three hundred and sixty million dollars. These figures are exceeded by the corn, wheat and hay crops. But while cotton has fallen from its high estate at home it has no rival as an article of foreign commerce. The yield this year shows a large increase, but the demand has also increased. Bradstreet estimates that the consumption for 1889-90 will exceed that of last year by over three hundred bales, insuring steady and remunerative prices to the planters.

Wrath and rage reign in Chicago. The Garden City discovered unmistakable evidence of a tie-up between New York and St. Louis to defeat her in the race for the World's Fair. The fact that New York, after desperate work, raised a little more than \$3,000,000, has convinced the managers that they can no longer ignore and ridicule Chicago's big fund, backed by unlimited energy, and if they cannot secure the fair and a Government bonus, they propose to punish Chicago by supporting St. Louis.

It seems to be a game of "raise-out" among the various athletic and sporting organizations of California as to which shall offer the greatest inducements to Sullivan and Jackson to violate the law by engaging in a prize-fight. Of course it is all nonsense to call the proposed event a box-fight. Gloves may be used, but there will be force enough behind them to produce a knock-out, although we are assured that "no brutality" is permitted in these contests.

Reports from 141 railroads in the country show that the earnings for October exceeded those of the corresponding month last year by over \$5,000,000, an increase of 13 per cent. The percentage of railway earnings has steadily increased month after month since the first of the year, confirming in a substantial manner the growing prosperity of the country. It remains to be seen whether the railroads are disposed to share their increased earnings with their patrons by a reduction in freight rates.

Santa Cruz is said to have offered \$30,000 for a fight to a fight between Sullivan and Jackson. The people of that enterprising town do not mean to be outdone in offering attractions to its visitors. Probably by next season there will be sparring matches every morning on the beach for the delectation of the young ladies who, ostensibly, go to take a dip in the surf.

Immigration to this country averaged forty-eight thousand a month for nine months of the year. The character and condition of the immigration has been considerably improved under the operation of the Federal law, so that the number, though less for the same period last year, adds much more to the National wealth.

A new scheme is on foot to dam the Arctic current with a view to improving the climate of Newfoundland and Labrador. The Arctic current may not be a very pleasant neighbor, but it won't do any good to get profane about it.

The United States of Brazil firmly intrenches itself by proclaiming universal suffrage. The decree will increase the voting population at least two hundred thousand.

The destructive floods in the East are a startling contrast to the delightful Indian Summer of this section. Truly, we are a favored people.

## FOOLED THE FACULTY.

## THEREFORE AN ELOPING COUPLE IS EXPELLED FROM COLLEGE.

## A Scheme to Connect Berlin With the Baltic—A Lucky Prince.

## Eloped and Expelled.

DES MOINES, Nov. 26.—College circles and society generally are excited over an episode that has resulted in the expelling from the college of two of its best students, Lorenzo D. Tetter and Gertrude L. Harp. This couple left the college the other evening without saying anything to any one, went to the home of the girl's parents, and, having gained their consent, were duly wedded by the local minister. The usual festivities followed, after which the bride and bridegroom returned to school, but here they did not meet with such smooth sailing. At a meeting of the Faculty this morning it was decided to make an example of the pair and both were expelled. The objections on the part of the Faculty are caused by the failure of the couple to inform them of their intentions.

## A Lucky Prince.

LONDON, Nov. 26.—Prince Lucien Bonaparte has succeeded quite unexpectedly to a fortune of £150,000. In 1824 Lord Dudley Coult-Stuart, son of the first Marquis of Brete, and a representative in Parliament of Arundel at the time of the Reform Bill, married Christiana Alexandrina, daughter of Lucien Bonaparte, Prince of Canino. Lord Dudley Stuart died in 1854, having survived the Princess seven years. For many years her only son, Paul Amadeo Francis Coult-Stuart had led the life of recluse in Brompton, unknown and almost forgotten. He recently died, and to-day a solicitor called at Norfolk Terrace, and informed Prince Lucien that his nephew, whom he had never seen, had bequeathed him the whole of his fortune.

## A New Ship Canal.

BERLIN, Nov. 26.—It is rumored that serious attention is now being paid in official circles to the project of connecting the Baltic and Berlin by a sea-going ship canal. This was a favorite idea of Dr. Strauss in his bankrupt days, when he cast about for some means for turning to account his financial genius, and there is reason to believe that even Count Moltke thought the idea worth serious consideration. Admiral Batsch, too, wrote an article entitled, "The First Ship in Berlin," in which he discussed the question whether this phenomenon might best be brought about by deepening the Elbe or Oder. He decided in favor of the latter, and now a committee has been formed to give effect to his proposal, or at least to examine it. No matter what action the committee takes, it will be a very long time yet before this city becomes a seaport.

## Quarrel Between Ancient Lovers

BUFFALO, Nov. 26.—Abram Thorne, aged nearly ninety years, recently sued Keziah Harrington to recover possession of his valuable farm which he had deeded to her in 1882. Mrs. Harrington is much younger than Mr. Thorne, who was surrogate of Erie county for many years, and had acted as his housekeeper. The Court decided that their relations were such that Mrs. Harrington kept the 40-acre farm. After Mrs. Harrington got the farm she left Mr. Thorne. The case has created a sensation, and one reason for the rupture between the people was the fondness of Mr. Thorne for his housekeeper's young daughter.

## Bay District Races.

SAN FRANCISCO, Nov. 26.—The Bay District track was in fair condition to-day, but the weather was cold.

The three-quarters of a mile dash, Abby won, Daisy D. second, Pacific F. third. Time, 1:17.  
The mile and a quarter, Vestal Stake, Louise M. won by a nose, in 2:16 1/2. Fastest second, Ellen Elton.  
The Record Stake, Willie Van won, Pein-killer second, Sunday third. Time, 1:02.  
The seven-eighths of a mile, Guido won, Merigold second, Ede third. Time, 1:32.  
The extra race was postponed until Thursday on account of darkness.

## Sarcastic Dr. McGlynn.

NEW YORK, Nov. 26.—Dr. McGlynn delivered an address last evening to a fair-sized audience at Cooper Union, in which he made allusion to the removal of the body of Miss Kelly from Cavalry Cemetery. He denounced the removal but said it made no difference in the hereafter where one was buried. His audience, which was composed mostly of women, hissed whenever he made sarcastic remarks about Mr. Preston and Archbishop Corrigan. In closing Dr. McGlynn said he would deliver a lecture at an early day on Daniel Dougherty's speech before the Catholic Congress.

## Conwardly Revenge.

NEW YORK, Nov. 26.—James Tierney, a crippled old watchman on the Morgan line pier, this afternoon discharged Joseph Kinney, a "longshoreman," for neglecting his duty. Kinney purchased a pistol and, returning, shot at his victim till the latter fell mortally wounded. Kinney was arrested.

## Weather Predictions.

SAN FRANCISCO, Nov. 26.—Forecast until 8 P. M. Wednesday: For California, fair weather, followed in Northern California by rain Wednesday afternoon.

## AMERICA FOR AMERICANS

## CHICAGO WORKINGMEN TAKE ACTION REGARDING ALIEN LABORERS.

## A Legislator's Ear Bitten Off—A Beantiful Lunatic Suicides—Uxoricide.

## War Against Alien Labor.

CHICAGO, Nov. 26.—A war against alien labor has been begun by the united labor organizations of Illinois. Chicago is to construct a drainage canal costing \$20,000,000, and at a grand mass meeting to be held to-morrow evening under the auspices of the political reform club resolutions will be adopted. The meeting will be composed of the Trades Assembly, Knights of Labor, Socialists and all others interested in labor matters in the campaign for drainage trustees. The candidates nominated for trustees will be asked to pledge themselves that the great canal shall not be built by contract, but that the work shall be done by the trustees in the same way that the city makes its improvements. They will be asked also before they receive the endorsement of the labor organizations to promise that only American citizens shall be employed on the work and that the workmen shall be paid semi-monthly.

## Jumped to Her Death.

CHICAGO, Nov. 26.—A few days ago Miss Mary Cohort, a handsome young woman, was brought by her friends to the St. Elizabeth hospital suffering with a mild form of insanity. Last evening she suddenly horrified her attendants by shouting: "I'm going to kill myself, I'm going to jump out of the window." A female attendant grasped the woman and tried to hold her back. The patient threw her aside as though she had been a child. Two other attendants came to her assistance and tried to hold the woman, but she seemed to be possessed of superhuman strength and easily overpowered them. Then, with a mad shriek, she rushed into the bath room, closed and bolted the door. She raised the window sash and balanced herself upon the ledge, then she leaped and a moment later she was picked up, a bruised and bleeding mass of flesh and bones. The fall had killed her instantly.

## A Legislator Assailed.

DES MOINES, Ia., Nov. 26.—There was a temporary agitation in Republican circles to-day over the report that Representative Shipley, of Guthrie county, had been badly injured and might be unable to take his seat in the Legislature. The Republican majority is so small that every member's condition is scrutinized daily. Inquiry showed that while at a public sale in Harndon, Guthrie county, yesterday, Mr. Shipley was assaulted by one W. L. Edwards in some dispute. Edwards bit off one of Shipley's ears, lacerated his face, almost bit off his thumb and otherwise injured him. Medical aid was summoned and Shipley's wounds were dressed. It is hoped he will be able to be around by the time the Legislature meets. The House to which he belongs is now a tie, fifty Republicans and fifty Democrats.

## Uxoricide and Suicide.

CEDAR RAPIDS, Ia., Nov. 26.—At Cedar Point this morning John Hennrichsen, a grocer, shot his wife three times at the farm residence of Wm. Taylor, four miles south of this place. Each shot to effect, one in the forehead, one in the neck, and the other in the back of the neck. Hennrichsen then went to Galtburg, Mounse's place near by and shot himself with a shotgun, blowing off his entire head. The cause is attributed to domestic trouble of long standing. The woman is still alive, but will die.

## A Loving Tramp.

NEW YORK, Nov. 26.—A tramp entered St. Anthony's Church, on Sullivan street, Saturday afternoon, and embraced several women who were there to attend confession. The women screamed, and when one of the priests came to see what was the trouble he embraced the priest also. A policeman from the Prince street station was called, and he arrested the tramp as being insane. The man gave his name as Patrick Grady, aged 32, with no home. He was committed for examination as to his sanity at Jefferson Market yesterday.

## From the Frozen North.

SAN FRANCISCO, Nov. 26.—The whaling bark Emma F. Herriman arrived to-day from Okhotsk sea, reporting a catch of eight whales, being the second largest catch of the season. The arrival of the Herriman completes the list of whalers that made the cruise to North Pacific waters during the season of 1889. In general the catch of the different fleets is the lightest reported for several years.

## Interesting Experiments.

WASHINGTON, Nov. 26.—The United States steamer Dispatch gave a series of experiments to-day in Chesapeake Bay with a view to demonstrating the relative desirability of the fog horn or bell as sound signals for sailing vessels in a fog or heavy weather. The result of the experiments will be communicated to the International Marine Conference for its information.

## A Chinaman After a Divorce.

NEBRASKA CITY, Neb., Nov. 26.—A Lincoln Chinaman was in town to-day looking up evidence against his white wife for the purpose of getting a divorce. She lived here after leaving her Chinese husband.

## TERRIBLE CONFLAGRATION.

## A \$10,000,000 FIRE IN THE MANUFACTURING TOWN OF LYNN, MASS.

## Four Newspapers, a Church, Seven Banks and a Large Number of Factories and Stores Burned.

## Lynn Laid Low.

LYNN, Mass., Nov. 26.—A conflagration unequalled in years occurred here to-day. The fire has burned to the water's edge and can spread no further. The territory burned over is estimated at from 10 to 12 acres. The ruins are still burning fiercely but the flames are under control. The loss is estimated at between \$6,000,000 and \$7,000,000. There are reports of men being burned, but no bodies have been recovered. Military companies from Lynn, Salem and other places are guarding the streets. The streets are filled with people burned out of house and home. Steamers are still arriving from places between Lynn and Boston.

## A LATER REPORT.

LYNN, Mass., Nov. 26.—The city was visited this afternoon by the greatest fire in its history, and with two exceptions, the most disastrous that ever visited the New England States.

The fire started at noon, raged eight hours, devastated a square mile of the business section of the city and caused a loss estimated at \$10,000,000. The fire started in the Mowers' wooden building, on Almont street, and soon communicated with the six-story brick block, known as the Mowers block. Almost simultaneously the four-story wooden shoe factory of Bennett & Barnard on Central avenue and a four-story wooden building on Almont street caught fire, and after that time a hurricane of flame was in progress. Arrived from Boston, Salem, Marblehead and surrounding towns. After the fire had been in progress two hours everybody declared it would not stop until it reached the ocean, which proved to be the case.

Four daily newspapers are burned out—the Item, the Bee, the Press and the News. There were many narrow escapes, but no fatalities.

The high brick fire wall of the B. F. Spinner block served as a barrier to further progress of the flames up Union street.

Three National banks—the Central, Security and First National, together with the Lynn Institution for Savings, located in the First National block, are all wiped out.

Twelve of the finest shoe blocks in the city are in ruins, and about 25 stores. At this writing it is impossible to state how many dwellings were burned. They were mostly occupied by the poor class in the vicinity of the wharves.

The Central Congregational Church is burned. It is impossible to give any estimate of insurance, but conservative estimates place the loss on property at \$10,000,000.

The First Methodist and First Universalist Churches and several school-houses have been thrown open to accommodate burned out families. The Mayor has called a special meeting of the Aldermen to meet to-day and appoint a relief committee. Dynamite and powder were used as fire-quenchers to blow up wooden buildings, but with little effect. The fire actually burned itself out, and at 7:30 was considered under control.

## Million-Dollar Swindle.

CHICAGO, Nov. 26.—In the million-dollar swindle of Frederickson & Co., land agents, it is said to-night that thousands of settlers, mostly Scandinavians in Kansas, Iowa and the Western States, who supposed they had paid for their land, and who have obtained deeds from Frederickson have almost by no title to it. Eight of the Eastern capitalists are said to have lost \$100,000 each to Frederickson, and one man to \$75,000.

The St. Louis Attorney and the chief sufferers will consult to-morrow on a plan of procedure against the swindlers, and Frederickson's arrest is threatened. It is stated that 200 servant girls in Chicago invested from \$50 to \$400 each and lost all.

## Drawing to an End.

CHICAGO, Nov. 26.—In the Cronin case a number of witnesses gave testimony in rebuttal to-day, and the State's Attorney announced the case for the people closed. Foster announced that he would introduce testimony in rebuttal on behalf of defendant Beggs at the next session. The Court adjourned until Friday.

## Gold Mine Sold.

PRESCOTT, Ariz., Nov. 26.—Negotiations which have been pending for some time were concluded to-day whereby Phelps, Dodge & Co., of New York, purchased the Senator gold mine, near Prescott. The price is not stated, but is supposed to be about \$40,000.

## A Notable Man Dying.

LIMA, Ohio, Nov. 24.—Colonel Bathhouse, of Washington, founder of the Order of Knights of Pythias in America, is lying very ill here, with small hopes of his recovery.

The growing political strength of the West will assert itself in the contest for the Speakership. Even if it fails to elect its candidate, it will demonstrate a power which cannot be ignored in shaping legislation.

## THE SILVER CONVENTION.

## SUMMARY OF AN ABLE SPEECH BY PRESIDENT WARNER.

## He Concisely Sets Forth the Reasons Why Silver Should Be Remonetized.

## The Silver Convention.

ST. LOUIS, Nov. 26.—The National Silver Convention met this morning. Three hundred and fifty delegates were in their seats. There was a large number of spectators present. James Campbell called the convention to order and introduced L. M. Ramsey of St. Louis as Temporary Chairman and Albert Singer as Temporary Secretary.

At the afternoon session Senator Stewart's resolution that each delegation should be allowed twenty votes, and that all over that number in any delegation should be allowed one vote each was finally adopted.

Permanent officers were selected as follows: Chairman, A. J. Warner, of Ohio; Vice Chairman, J. M. McMichael, Colorado; Secretary, Albert Singer, Missouri; Assistant Secretaries—F. J. Dana, Colorado; T. J. Palmer, Kansas; J. A. Greer, Pennsylvania.

The Nevada contingent was strengthened to-day by the arrival of Senator Stewart, Frank G. Newlands, Tom Fitch and Judge M. J. Farrell.

Chairman Warner, upon being introduced to the convention by Senator Stewart, thanked that body for the unexpected honor. He said that no subject interested him more than the silver question. Since Germany, in 1873, followed by other European powers and by the United States, limited silver as money the question has been a vital issue and in its discussion the bi-metallics had won the victory. The attempt to change the money standard from gold and silver to gold alone was worse than a mistake—it was almost a crime.

The demonization of silver had made the gold standard different than before. That act of demonization of silver was in fact a great crime, and its revocation was now an important question of the world. The people had suffered more from bad monetary legislation than from any other cause. The first duty to them was stability of finances. What was asked was the restoration of the money standard which existed for ages; that silver be placed on an equality with gold at the ratio which has existed. It was the duty of the country to restore what should never have been disturbed, and this convention has assembled here to decide upon the best method to be pursued in reaching the desired end.

H. B. Chamberlain, President of the Denver Chamber of Commerce, on behalf of that body, then presented a solid silver gavel to Chairman Warner.

A number of resolutions to be referred to the Committee on Resolutions were read and recorded. The committee is considered a very strong one, and it is expected to fully embody the wishes of the Convention briefly and so clearly that they will be easily understood.

After the announcement that there would be a reception at the Merchants' Exchange to-night, the Convention adjourned.

At a meeting of the Committee of Order of Business to-night it was agreed to recommend that Henry Watterson, Thos. Fitch, Senator Stewart and R. P. Brand should make a formal presentation of the silver cause to the Convention.

Among the Vice Presidents selected are Edward Curtis, for California; Joseph Grantmeyer, Nevada; C. R. Chambers, Utah; Dennis Spady, Colorado; C. F. Missigbrod, Montana; Wm. Hildman, Idaho; W. J. Shaney, Arizona.

## The Pettis Case.

NEW YORK, Nov. 26.—The Coroner's jury in the Pettis murder case at St. Louis came to his death by pistol shot wounds inflicted by Hannah B. Stenworth. The Coroner held the prisoner, without bail, to await the action of the Grand Jury.

## Comstock's Past and Present Value.

In a local broker's office this morning, says the Virginia Chronicle, the question was asked, "What's the total value of the Comstock lode mines at the present quoted prices?" Two of the persons present rated it at from \$12,000,000 to \$13,000,000 and the lowest guess was \$9,000,000. A careful calculation showed that at to-day's quotations the valuation footed up \$5,945,000.

The highest valuation placed on the Comstock lode, during any time since its discovery, was nearly \$500,000,000 in January, 1875, and the lowest \$2,500,000, in July, 1884. At the time of the highest valuation there were only four billion producing mines on the lode—the Com Virginia, California, Crown Point and Belcher—while at present there are 11, but the combined value of the present ones is but one-fourth of that of the mines mentioned above in 1875.

At that date these were the only mines that possessed any actual value, that of the others being merely speculative. Union Consolidated, Mexican and other lode mines that had scarcely been disturbed by a pick, were quoted at \$90, \$95 and \$120.

## Water Storage.

The Adm Argus makes the following sensible remarks to the farmers of Modoc county, Cal.:

The matter of building reservoirs should receive more attention than the farmers and people of this country are giving it. Modoc affords splendid sites for water storage, and the experience of the past season is clearly shown that no dependable water can be placed in a profitable way in winter to sufficiently dampen the soil for good crops. Think of the amount of water that flows unused, or without doing any good to the soil, into the sea each Spring and Winter, when showers are so earnestly looked for and so necessary to the growing crops—the living of the people.

## Nevada's Boundaries.

The Virginia Chronicle says:

According to the recent survey of the dividing line between California and Nevada, by the Surveyor-General of the former State, California will get nearly the entire area of Lake Tahoe and a strip of Nevada territory three-fourths of a mile in breadth. It is about time that measures were taken by the Nevada Legislature to provide for a survey of the California boundary line by the authorities of this State before all the territory except desert land is claimed by neighboring commonwealths through false surveys made in the interest of the living corporations.

## WHAT ON EARTH

Is the reason people will not, can not or do not see any difference in cheap nostrums put up by cheap John houses or irresponsible parties at enormous profits, rather than take a medicine of world wide reputation and one that is giving universal satisfaction at equal price? No medicine in the world is giving such unparalleled satisfaction for purifying the blood as BEOG'S BLOOD PURIFIER AND BLOOD MAKER, and every bottle that does not do its work will cost you nothing.

## OSBORN &amp; SHOEMAKER, Druggists.

The Carson Tribune says: Colonel F. C. Lord, Secretary of the Republican State Central Committee, expects to be appointed a Paymaster in the U. S. Army.

George I. Lammon and William Sunderland, of Virginia City, are after the U. S. Marshalship of Nevada.

## LOOK OUT FOR BELLAMY.

HE MAY LEAD YOUNG PEOPLE FROM THEIR POLITICAL ALLEGIANCE.

Actor Osbourne's Spats—The Morrill-Marker Suit—The Hat in Court—Other Matters.

A friend writes me from Como that I ought to be careful how I recommend Bellamy's "Looking Backward" to the young people of Reno.

The reason given is unique, and is worthy of a resident of Como. My correspondent declares that by reading such books the minds of the youngsters will become so warped that they will want to jump out of the political harness and will want to start some kind of a new-fangled party in opposition to the Democratic party or the Republican party, of which latter organization my correspondent and myself have for so many years been members. He says that it is bad business, this getting into a third party. He believes in sticking to one side or the other, so a man can be counted, and in conclusion says: "The fellow who is always bolting the regular nominations never has anything else nor a winder to him."

All I have to say touching my friend's suggestion is this. Any political party that can't stand off a 300-page novel has no right to exist.

As a matter of fact, in my opinion, Bellamy's book is but a fancied realization of the theories on which the Republican party is founded. It is simply carrying the idea of a paternal (or, more properly speaking, a fraternal) government to its logical conclusion.

The fundamental proposition of the Republican party is that the whole country is to be devoted to the good of all the people, and that all shall have an equal opportunity in every sphere of life.

For this reason tariff laws are enacted, the purpose being to encourage home industry and add to national greatness, in which every citizen is supposed to proudly share.

For this reason internal improvements are sanctioned.

For this reason rivers are dredged, harbors are improved and railroads are subsidized.

As for myself, I have never had the hardihood to deny that, according to my understanding, it is the policy of the Republican party to help develop the resources of the entire country. That is the part of its record, above all others, to which we may "point with pride."

What I am driving at is simply this: From improving rivers and harbors for the people it is only one step to improving land for the people. The policy which allows one cannot reasonably deny the other.

Nevada has only to insist on her rights and she is bound to win. If it needs the backing of the national treasury to construct the reservoirs and dig the canals that backing is due and must be given.

All this is written for the benefit of my friend at Como, to show him that Bellamy is entirely in accord with the Republican party. The only difference is that he has carried out the idea to its legitimate result.

Leaving my Como companion out of view, I do not wish to have it understood that I am an enthusiastic disciple of Bellamy, but simply told the readers of the JOURNAL about the book's popularity in light-colored society circles, the same as I would any other bit of gossip that I thought they would like to hear. I am informed that it has entirely superseded progressive, progressive faro bank and aggressive poker among the De Veres of our local four hundred.

Dancing, however, still holds its own in spite of the Nationalist movement.

If you ever intend to go to a San Francisco dancing party you had better take a few lessons at Brooks' academy before you venture on the floor.

This admonition is prompted by the sad experience of a bright young fellow who strayed from the Comstock recently, and the second evening that he was here accepted an invitation from one of his city consorts to attend a hop. He could do nothing but hop. He couldn't dance a figure that was put on the floor. In the waltz and schottische he got on fairly well, but when he took his position to help in an intricate quadrille, without a single "ally-mand-left," "do-si-do" or "swing-on-the-corner" in it, he broke down and had to take his seat.

The thing that went worst against him was that none of the figures were called off like Prof. Yarney or Walter Hastings would have called them.

I never did go anything on these razzle-dazzle novelty dances. I'd rather go to a party in Satro or Empire than to a fancy hopping match in New York or Carson. The dancing is not so cold and formal, and suits me better.

Many Eggebrushers remember George Osbourne when he was a miner and afterward a stationary engineer on the Comstock. I can recall his appearance as he stood at the head of the Ophir shaft, with his hand on the lever and his eyes on the gauge. He wore a battered old straw hat, a greasy jumper and blue overalls three sizes too large.

He doesn't look much like that now. I met him on Montgomery street yesterday, and he was the best dressed man I had seen for a week. In addition to his other finery, he wore white spats. For fear you all do not know what spats are I will explain that they are the canvas coverings or meshers that are worn over the shoes. I didn't know what they were called until I asked him.

Osbourne was a good engineer, and has got to be a good actor, so I forgive him if he does wear spats.

Jack Todman, who used to edit the

Candelaria True Fissure for Hon. John M. Dorrner, is in New York doing good newspaper work. He went around the Horn on a sailing vessel, and will write a book describing his adventures.

Tom Alexander, favorably known by Nevadans with stiff beards and tender faces, is engaged as barber on a big steamship which goes between this port and Australia.

Testimony is being taken in the Eagle Lake water suit between Pete Marker and Oap Merrill. Johnny Alexander and ex-Judge Boardman are Marker's lawyers. Hon. W. W. Bishop, formerly of Eureka, is representing Merrill. A great many thousand dollars are at stake. The case will be tried in the United States District Court.

"Hold up your right hand," said Clerk Tolle when Joseph Bernstein presented himself to be sworn as a witness in Judge Shafter's Court last Monday.

Mr. Bernstein calmly placed his hat on his head and obeyed.

"Take off your hat," cried the astonished clerk.

The witness calmly turned to the Court and said "I am a Hebrew, and cannot conscientiously take an oath in the presence of my God with my head uncovered."

"Do you consider an oath more binding when taken while you are wearing your hat?" asked the Judge.

"Yes, sir."

"Is that part of your religious belief?"

"Yes, sir."

"Let the oath be so administered," was the order, and the trial proceeded, the witness removing his hat as soon as the "so help you God" was pronounced.

This question as to whether a man of the Jewish faith has a right to wear his hat in Court when taking an oath has been the cause of considerable comment in the newspapers lately.

An Oakland Justice of the Peace sent a Hebrew merchant to jail for contempt of Court because he refused to go unattended while calling on God to witness the truth of what he was about to say. The prisoner was speedily released on a writ of habeas corpus, the higher Court declaring that a man had a right to swear in any manner that his conscience dictated.

Dan Wheeler used to have a sheep driver who could swear effectively in seven different languages with his hat on his head or under his feet.

The rain storm ended here last Friday and to-day, being Sunday, Golden Gate Park was thronged with pleasure-seekers who crowded out to hear the music. A party of jolly picnicers eating luncheon on the grass caused me to reflect upon the climatic differences between this place and Reno. There are other things, however, that with even greater force call up such thoughts. For instance, the other morning as I was walking with my son Newton, and he all the time singing something which sounded like "We Won't Go Home 'Till Morning," I was real glad that the mild reading of the thermometer comforted so well with the character of my raiment at that instant.

Some of the Judges hint that Judge Leonard thinks of moving to Sacramento. In that event I shall expect to see him on the Supreme Bench of California inside of four years if his aspirations tend that way. Every Nevada who has come to California has done well, and nearly all who have sought office have been successful.

Soon after Judge Beatty's election to the office of Chief Justice of the Supreme Court of this State, I attended a banquet of the Bench and Bar Association where he was one of the honored guests. It was, in fact, his introduction to the lawyers of San Francisco, for his practice in Sacramento had not brought him in contact with a great many of them before his election.

You should have heard his speech. It was applauded for a long time, and the laughter was simply uncontroled.

In the course of his remarks, Judge Beatty told Charles Lamb's story about the origin of roast pig.

At his first reference to this story a young attorney who sat near me leaned over and muttered "O—O—chestnut!"

But it wasn't a chestnut; not the way he told it, and the lesson he drew from it was something that the others had never before thought of. His speech established his popularity at once, and those who began to yawn when he started in were among the most appreciative listeners before he got through.

An ancient tale receives no defence or veneration on account of its gray hairs among a lot of attorneys, and in offending in this regard the Chief Justice would be coughed down as quickly as a law student.

It pleased me to read in the papers that the late storm spread some dampness over Nevada. I hope you will have snow enough in the mountains to furnish plenty of water for next summer's irrigation.

## U. S. Circuit Court.

In the U. S. Circuit Court on Saturday afternoon Judge Sabin rendered his decision in the Eureka timber cases tried before him last week.

In the case of the United States against the Eureka and Palisade Railroad Company, judgment was rendered for the Government for \$5,200.

In the case of the Government against the Richmond Mining Company of Nevada, judgment was rendered for the defendant.

There is a suit to follow against the railroad company for conversion of Government timber in the past involving \$550,000, and according to the principles laid down in Judge Sabin's decisions the defendant is pretty certain to lose, which will bankrupt the railroad company and be the means of causing it to cease operations. This will be very disastrous to Eureka county.

Excellent, reliable and economical are the stoves and ranges sold by Lange & Schmitt. Every house and store should have them. Call and inspect before purchasing.

## 250 Beautiful Lots For Sale!

A RARE CHANCE FOR AN INVESTMENT AND A HOME.

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Avenue—Riverside Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

Has no equal in Nevada or California for salubrity of climate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State and there is no failure of crops. Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.

## RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with \$300,000 capital, and the First National Bank with \$200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition.

The State Fair is always held at Reno.

Reno is the County Seat of Washoe County, the wealthiest county in Nevada.

JOHN F. LOHIE, Sec'y.

TEHAMA COUNTY,

10,375 27-100 Acres.

Township 25 N., Range 7 W., Mt.

Diablo Meridian.

This township lies on the eastern slope of the Coast Range of mountains, and from 13 to 20 miles west from Red Bluff, the county seat of Tehama County. The field notes of the U. S. Surveyor who laid out this township, says: "This township is well adapted for grazing, as it affords pasture for large herds of cattle. It is well watered by the various tributaries of Red Bluff Creek. It is also very valuable for the timber, which consists of a heavy growth of yellow and sugar pine, spruce, and cedar. There is a heavy undergrowth of chaparral, chemical and manzanita." The even sections are in most instances government land, so that the parts most valuable as adjacent to the range might easily be secured at government price, namely, \$2.50 per acre for single quarter sections.

In Section 9, coal was discovered recently by some herders, but nothing has been done to develop the mine, although samples which have been tested show the coal to be of excellent quality.

We are assured that a Railroad heading for the Coast and running along the Coast Range timber belt will be built very near this range. Prior to the whole, consisting of 10,375 27-100 acres will be \$25,000.

## SUMMONS.

IN THE DISTRICT COURT OF THE STATE OF Nevada, in and for the county of Washoe. The State of Nevada sends to Guilford E. Chapin, Esquire, to appear in and for the county of Washoe, in and for the county of the State of Nevada, in and for the county of Washoe, to answer the complaint therein within ten days after the service on you of this Summons (exclusive of the day of service), if served in said county, or twenty days if served out of said county, but within said district, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to recover judgment and decree of Court annulling the marriage heretofore and now existing between you and said plaintiff, on the ground of willful failure and neglect on your part to provide for plaintiff and the maintenance of said plaintiff, and also on the further ground of extreme cruelty on your part towards the plaintiff, and for the custody and control of the minor children of yourself and plaintiff, all of which will more fully appear from the complaint which is on file in the office of the Clerk of said Court at Reno, in said county, and to which you are especially referred.

And you are further notified, that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded and for costs.

In testimony whereof, I, W. V. Julien, Clerk, have hereunto set my hand and the official seal of said Court, this 10th day of July, A. D., 1899.

W. V. JULIEN,  
Clerk of the District Court of the State of Nevada, in and for Washoe County.

By W. L. Knox, Deputy.
